Professional summary

Senior UX Designer with 5+ years of experience designing enterprise and B2B SaaS products for technical and business users. Lead end-to-end design from problem framing and user research through information architecture, prototyping, and delivery. Bring systems thinking, design-system leadership, and a computer science background to complex workflows across AI/ML platforms, cloud services, and developer tools.

Professional experience

Senior UX Designer | Red Hat

Apr 2024 - Present

Red Hat OpenShift AI | Model serving and governance; design patterns; team leadership

- Redesigned model-access governance to connect models, subscriptions, authorization policies, and user groups. The shipped experience helps administrators investigate access and usage limits across related settings.
- Led a cross-functional workshop using product personas, journey mapping, and Jobs-to-be-Done to clarify the end-to-end workflow and identify gaps in the existing experience.
- Built interactive prototypes with Cursor, Claude, React, and PatternFly to explore interactions and review technical feasibility with product managers and engineers.
- Designed registration flows for internally deployed and externally hosted AI models, including model status, credential management, and provider routing.
- Led a design-consistency initiative across a 20-designer team. Established a working group to identify, prioritize, and document reusable patterns, with Figma guidance and workshops to support adoption.
- Partnered with engineering, product management, UX research, content design, and customer-facing teams to resolve trade-offs and guide designs through review and implementation.

UX Designer | Red Hat

Apr 2022 - Mar 2024

Team lead and subject matter expert | Cloud services and Red Hat OpenShift AI

- Led UX for Service Registry and API Designer, from stakeholder interviews and problem framing through user flows, wireframes, high-fidelity prototypes, and engineering handoff.
- Coordinated design work across features, partnered with researchers on usability testing, and reviewed implemented interfaces with engineers and content designers.
- Mentored designers and guided UX direction across multiple Red Hat OpenShift AI capabilities, connecting feature decisions to the broader platform experience.

Professional experience (continued)

Associate UX Designer | Red Hat

May 2021 - Mar 2022

Cloud services and developer tools

- Researched and tested OpenShift Streams for Apache Kafka workflows, identifying usability issues and proposing interaction improvements.
- Developed UX guidance for the Red Hat OpenShift Application Services command-line interface (CLI) and built interactive HTML, CSS, and JavaScript prototypes.

Software Engineering Intern | Red Hat

Jan 2020 - Aug 2020

- Built monitoring and automation tools using Prometheus, Grafana, Go, and Python, developing a practical understanding of cloud infrastructure and engineering workflows.

Skills

Strategy & design: End-to-end product design, UX strategy, Systems thinking, Problem framing, Information architecture, Interaction design, Design systems, Prototyping

Research & collaboration: User research, Usability testing, Stakeholder interviews, Journey mapping, Jobs-to-be-Done, Workshop facilitation, Cross-functional collaboration, Mentorship, Engineering handoff

Tools & technical knowledge: Figma, Miro, Cursor, Claude, Jira, PatternFly, React, HTML, CSS, JavaScript, API workflows, AI-assisted prototyping

Mentoring & community

Product Design Mentor

Boston University Spark! | Sep 2021 - Dec 2021

Mentored student teams developing an open-source virtual assistant, providing feedback on UX and interaction design.

UX Designer (Volunteer)

Hack for LA | Mar 2021 - Aug 2021

Contributed to the 311 Data website and design system, supporting a civic technology project.

Graduate Teaching Assistant, Human-Computer Interaction

Northeastern University | Sep 2020 - Dec 2020

Mentored student teams on industry-partnered UX projects in the graduate Human-Computer Interaction course.

Education

Master of Science, Computer Science

Northeastern University, Boston, MA | 2020

Coursework in Human-Computer Interaction.

Bachelor of Technology, Electronics & Communication Engineering

Usha Mittal Institute of Technology, SNDT University, Mumbai, India | 2016
