

Simran Dhaliwal

Senior UX / Product Designer

simdhalwalux@gmail.com | [linkedin.com/in/simrandhaliwal94](https://www.linkedin.com/in/simrandhaliwal94)

Designing thoughtful enterprise and B2B SaaS experiences across AI/ML, cloud, developer tools, and design systems. A background in computer science and HCI, with a focus on making complexity understandable.

Experience

Red Hat

May 2021 - Present

UX progression / Senior UX Designer

Designing complex enterprise and B2B SaaS experiences across AI/ML, cloud, developer tools, APIs, data-heavy workflows, and design systems. Along the way, I've led UX across product areas, served as an SME, driven design-pattern consistency, and mentored designers.

BU Spark!

Sep 2021 - Dec 2021

Product Design Mentor

Mentored students designing an open-source virtual assistant.

Hack for LA

Mar 2021 - Aug 2021

UX Designer

Designed a 311 Data platform to help Neighborhood Councils use public data to support community initiatives; contributed to the website and design system.

Red Hat

Jan 2020 - Aug 2020

Software Engineer Intern

Worked across telemetry, data analysis, Grafana, Prometheus, Go, Tableau, ETL, and Python.

Education

Master of Science in Computer Science

Northeastern University | 2018-2020

Bachelor of Technology in Electronics & Communication Engineering

Usha Mittal Institute of Technology, SNDT University | 2012-2016
